❑ Project Manager: **Tran Thanh Nhan**

Background:
- Graduated in Mechatronic Engineering from Ho Chi Minh City University of Technology (HCMUT)
- Overall 10+ years of software development
- Experience in C++, C#, Java, Python
- Project management skills: Agile, Waterfall

Skills:		Project Experience:
Programming:		**_01/2022 – Now:_** Project manager
- C++	Expert	• **Project:** Use the Object ARX SDK library to develop applications
- C#	Advance	
- Python	Advance	**_08/2015 – Now:_** Technical leader, Project manager
- Java	Advance	• **Project:** Use the Object ARX SDK library to develop applications
		• **Programming language:** C++, C#
Platform :		
- Linux	Expert	**_03/2012 – 04/2015:_** Technical leader
- Windows	Advance	• **Project:** Research new experimental equipment
		• **Programming language:** Java, Python, C++
Tools		• **Tools/Hardware:** Visual Studio
- Visual Studio, Android Studio	Expert	
- SVN, GIT	Advance	
Foreign Language:		
- Japanese	N2	
- English	Toeic 550	

❑ アーキテクト: **Pham Viet Hung**

Background:
- Graduated in Hanoi Aptech Certified Computer Professional (ACCP-Pro)
- Experience in Java, Python, Golang, AngularJS
- Certificates: Google Professional Cloud Architect, Google Professional Cloud Developer, Google Professional Cloud DevOps Engineer, AWS Certified Solutions Architect, AWS Certified Developer

Skills:		Project Experience:
Programming:		*06/2021 – Now:* Solution Architect
- Java	Expert	• **Project:** Develop A platform that helps optimize the process of selling and buying in real estate, connect all information relating to housing, identify property details at point in time.
- Python	Advance	• **Programming language:** Golang, Python
- Golang	Expert	• **Technology:** Google Cloud Platform, Docker, Helm, Istio, Redis, BigQuery, Apache Kafka, Terraform, Gitlab CI
- AngularJS	Intermediate	
		01/2017 – 05/2021: Solution Architect
Platform:		• **Project:**
- Linux	Expert	• OKR Billing: manage billing, resources, create schedule tasks, reports, query and apply recommendations
- Google Cloud	Expert	• OKR Onepay: users can use a OKR Pay e-wallet to make transactions such as bill payments, mobile recharges, travel/movie bookings, money transfer from one bank account to another, among many others.
- AWS	Expert	
		• **Programming language:** Java, Python, Golang, AngularJS
Tools		• **Technology:** Google Cloud Platform (Serverless, KMS, Pub/sub, Firebase,...), Apache Kafka, Splunk, Terraform, Gitlab CI, …
- Eclipse, Visual Studio	Expert	
- SVN, GIT	Expert	*05/2015 – 01/2017:* Technical Leader
- Gitlab CI	Expert	• **Project:** Internal service portal to access and manage AWS resources
		• **Programming language:** Java, Python, AngularJS
Foreign Language:	Good	**Technology**: AWS (Lambda, EC2, API Gateway, Route53, SNS, AWS RDS, DynamoDB, S3, Cloud Formation), Gitlab CI, Jenkins
- English		

☐ Tester: **NGUYEN THI MY PHUONG**

Background:
- Bachelor Degree of Economic University HCM city in Quality Administration
- International student - ECC Japanese School in Japan
- Overall 6+ years of Quality Assurance

Skills:

Skill:

Skill	Level
- Develop and document Standard Operating Procedures	Expert
- Test	Intermediate

Platform :

Platform	Level
- Linux	Intermediate
- Windows	Intermediate

Tools

Tool	Level
- Microsoft Office: Word, Excel, Power Point	Expert
- GIT	Intermediate

Foreign Language:

Language	Level
- Japanese	JLPT N2
- English	Toeic 650

Project Experience:

01/2019 – Now: Tester
- Clear requirement
- Create test case
- Test the CAD system

01/2015 – 12/2018: QA (Quality Assurance)
- Join in ISO 20K project as QA role to support, built and develop ISO 20k Standard Process
- Internal Audit Process
- Join in Suntory Pepsico DMS Project as QA role to control and audit the project process. Support team to manage and solve the customer complains

03/2012 – 12/2014: QC (Quality Control)
- Build and Control the Quality Specification
- Mange and control the Cost of Quality of Production
- Develop and document Standard Operating Procedures
- ISO 13485
- Manage and Solve Customer Complaints
- Establish, control and maintain the production process to meet CE Marking standard, got the certificate of EUROPE–CE mark
